

Gravity damper for SEQ axial fans

🔧 Sectors

🔧 Applications: **Fix**

🔧 Issues **Odours**

COD: SERSEQ000000000

The SEQ axial fan gravity damper prevents heat loss when the fan is stopped, rain, wind and bird entry.

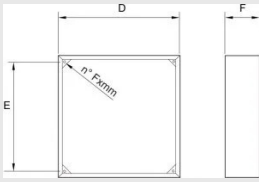

Detailed description

The damper blades open with the movement of air when the fan is switched on and close again by gravity when it is switched off, preventing heat loss or entry of external bodies.

Constructed entirely of lightweight, durable plastic material.

Accessories

Spacer for fixing SE fans on thin walls

DISSEQ000000000

Rectangular spacer for fixing on thin walls for SEQ model fans.
