

BSMID25 balanced arm

🔧 Sectors **Welding,**

🔧 Applications: **Mobile, Fix**

COD: BSMID2500000000

BSMID25 balanced welding flashlight support arm, complete with wire puller holder and fixing plate.

Detailed description

Thanks to the perfect and stable balance, it accompanies the welder in every movement so as to allow him to operate in the best possible way and at the same time ensure the ideal conditions of hygiene, safety and ergonomics.

The BSMID25 balanced welding flashlight support arm guarantees the elimination of cables, hoses and extensions from the floor; therefore, they are ideal for any company that wants in a single solution to cut operating costs, maintenance and at the same time be fully guaranteed against regulations.

They can be installed on board the welding machine, on a wheeled and stabilized platform or fixed to the ground.

Construction : welded steel and powder coated

Contact the technical department to check compatibility or the need for brackets and adapters.
