# Galvanized side extensions and roof cabins WF

- ↓ Sectors Painting,
- ♫ Applications: Fix
- ₽ Issues VOC fumes

COD: WFP0PLT0000000

Pair of side walls and upper roof made of galvanized sheet metal with a standard length of 900mm (other sizes at choice) for paint and powder suction wall booths model WF.

#### **Detailed description**

Lateral extensions and underneath are made like the cabin structure from sturdy prime galvanized sheet metal, machined with a numerically controlled punching machine and press-folded with a 6-axis computerized bending machine. There are no welds for maximum durability and reduction of corrosion phenomena. Due to this containment, the suction efficiency of the system increases, as dispersion into the environment due to horizontal air currents is reduced.
